Junior Infants

Measurement Fun

Students in junior infants have been very busy finding items around their houses and ordering them from long/short/ tall/small and full/empty. Well done infants!

Rhyming words

Infants have been learning lots of new words that rhyme. What a fun activity! We look forward to hearing all their new words!

Senior Infants

Family heights

Students in senior infants have been busy learning about measurements. Senior infants measured the people in their family and put them in the correct order - tallest to shortest. Exciting!

History Projects

Students have been working very hard on their history projects. Children are writing and drawing about their families and different things they are doing at home. Amazing!

1st class

2D Shapes

Students have been busy learning about 2D shapes. They even made 2D shape pictures and did some circle art. Incredible!

Wellbeing Journals

Students have started writing a wellbeing journal and thinking of happy memories and positive emotions. Wow, what a great idea! Well done 1st class!

2nd class

Money Money

Students are busy learning about money in maths! What a practical lesson during lockdown! Well done 2nd class.

Superhero's

Students in 2nd class are creating their own superhero characters for writing a narrative story. Plenty of future authors in 2nd class! Well done guys!

3rd Class

Lockdown Novels

Students in 3rd class are busy reading novels. We look forward to hearing the great book reviews! Well done 3rd class. Keep up all of the reading!

Tea Stained Treasure Maps

Students in 3rd class have been busy creating tea stained treasure maps. What a beautiful idea!

4th Class

Area Adventures

Students in 4th class are busy learning about area in maths. The students have been drawing shapes and calculating the area as well as doing area trails in their homes to find out what room is the smallest / biggest. Well done 4th class!

Irish Music Composers

Students in 4th class have been busy learning about Great Irish composers such as Turlough O' Carolan and Seán O' Riada. What an interesting topic in music!

5th Class

Colour Wheel Challenge

Students in 5th class have been busy creating colour wheels. What a great art idea! Plenty of budding artists in 5th class. Well done guys!

Fun France Facts

Students in 5th class are creating geography projects about France. What an interesting country!

6th class

WWII

Students in 6th class have been busy creating projects about WWII. What an interesting topic in history! Well done guys!

7 Wonders of the World

Students in 6th class have also been busy Creating geography projects on the 7 Wonders of the World. We hope when COVID-19 is over that we will get to travel again and maybe even see one of the Wonders Of the World! Well done 6th class!

Riddles of the Month

I have cities,
but no houses.
I have
mountains, but
no trees. I
have water,
but no fish.
What am I ?

You measure my life
in hours, and I serve
you by expiring. I'm
quick when I'm thin
and slow when I'm
fat. The wind is my
enemy.
What am I ?

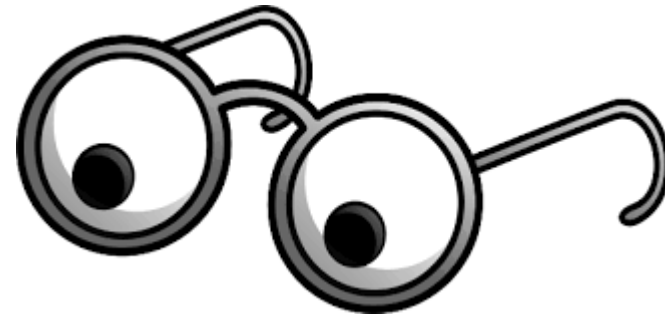

I come from a mine and
get surrounded by wood
always. Everyone uses
me.
What am I ?

Fun Facts of the Month

The shortest war in
history lasted only
38 minutes!

Cows can walk
upstairs, but not
down them.

Snails take the longest
naps, some lasting as
long as 3 years!

Recycle Spectacles

This is an initiative that the school is involved in for the past few years. Working in conjunction with Sight Savers, where unused spectacles are recycled and sent to Third World countries. It does not matter if they are broken, or if glass or the glasses arms are missing. They can be reused in some way.

The last consignment went in March - about 6,000 pairs to Romania and mostly to children.

So, if people are decluttering, or tidying out the "spare drawer", if they keep them aside and we will continue to take them in when we return to school. The box is kept in reception.
