

My Locker

Tips to help you keep your locker organised

1. Decide how you will stack your books in your locker:

OR

2. Keep the books you need in the morning (before break) on the top of your stack or at the beginning of your row of books – stacking books side by side can make it easier to take books in and out
3. Colour coding your books can make them easier to find in your locker too - This may be done easily by covering your books (pictured above) in coloured paper or wrapping paper or by putting coloured stickers on the binding
4. Purchasing a shatter-proof ruler is recommended so that it does not get broken in your locker / schoolbag. A clear pencil case is recommended so you can spot what you need easily.
5. Consider having an extra set of supplies at home (ruler, calculator, protractor, Irish/Eng dictionary, books).
6. Post a copy of your timetable on your locker door where you can see it easily
7. Decide where you will put another copy of your timetable, e.g. taped to the inside of your homework journal, in your wallet, in your schoolbag, etc.
8. It is recommended you set up a space at home where you can practice taking out your books from a pretend locker space. This will help you decide how it is best for you to organise your books and supplies.
9. It might be a good idea to request a locker at the end of a row; at waist/chest height to make it easier to access. It's a good idea to practise trying to open/close your lock also. You may either have a key lock or a combination lock. It's a good idea to practise opening and closing the lock so you feel confident.
